

Dual Color LED Emergency Vehicle Light Bar

High-intensity LED emergency light bar is designed for vehicle applications. It features dual-color illumination, durable construction, and a sleek, aerodynamic profile.

Product Overview

High-Visibility Emergency Signaling

This high-intensity LED emergency light bar is engineered for reliable performance in demanding vehicle applications. Featuring dual-color illumination in red and blue, it offers superior visibility for law enforcement, emergency response, and safety vehicles. The sleek, aerodynamic design ensures minimal wind resistance while providing effective signaling across diverse weather conditions.

Technical Specifications

illumination Type	Dual-color LED
Available Colors	Red, Blue
Profile Design	Aerodynamic

Installation & Usage

Recommended Applications

- Emergency Vehicles
- Law Enforcement
- Safety Vehicles

Included Hardware	Yes
