Product Overview

High-Performance Dual-Cylinder Inflation

This portable dual-cylinder air compressor is engineered for rapid and reliable inflation, capable of filling a standard tire in just 2-3 minutes. Designed for versatility and ease of use, it features a robust construction with dual 30mm cylinders for increased airflow and efficiency. Whether for emergency roadside assistance or routine maintenance, this 12V DC unit provides the power and portability needed for automotive and recreational applications.

Performance Specifications

Maximum Pressure

150 PSI

Max Pressure
