Overview

Versatile Dual-Fuel Power Solution

This portable generator offers dual-fuel flexibility, allowing operation on both gasoline and LPG (Liquid Propane Gas) to suit various site requirements. Engineered for reliability, it features a 13.0 HP engine and an integrated rechargeable battery system for consistent starting performance. Designed with portability in mind, the unit includes a durable frame, wheels, and handle, making it an ideal power source for professional and industrial applications.

Technical Specifications

Engine Specifications

Feature	Specification
Engine Power	13.0 HP
Battery Type	Rechargeable Sealed Lead-Acid
Battery Rating	12V 15Ah/20Hr

Electrical Outputs

- DC Output: 12V 8.3A
- Includes Voltmeter
- AC Outlets

Safety & Compliance

Safety Features

- AC Circuit Breaker
- DC Circuit Breaker
- Non-spillable battery technology
