

Dual-Gang Metal Surface Mount Switch Box with Toggle Switches

This dual-gang box is designed for surface mounting and constructed from durable metal. It includes two toggle switches, each with a white toggle for easy operation.

Product Overview

Robust Dual-Gang Electrical Solution

This dual-gang metal surface mount switch box provides a durable and reliable housing for electrical wiring applications. Designed for industrial and commercial environments, it features a metallic finish with rounded edges for a clean, professional aesthetic. The unit comes equipped with two high-quality toggle switches, making it a ready-to-install solution for surface-mounted electrical control.
