

Dual Handle Kitchen Sink Faucet

This kitchen faucet features dual handles for controlling hot and cold water flow. Its high-arc spout provides ample clearance for washing dishes and filling pots.

Overview

Dual Handle Kitchen Sink Faucet

This dual-handle kitchen sink faucet is engineered for both residential and commercial utility applications. Featuring a durable brass construction with a polished chrome finish, it offers excellent corrosion resistance and long-lasting performance. The design includes a high-arc spout for ample clearance and separate hot and cold water controls, allowing for precise temperature adjustment.
