

Dual-Head Ceiling Fan with Light

This ceiling fan features a brushed nickel finish and incorporates two independently adjustable fan heads for directional airflow. It includes an integrated frosted glass light fixture for ambient illumination, enclosed in chrome-finished cages.

Product Overview

Dual-Head Ceiling Fan with Light

This modern ceiling fan features a unique dual-head design, allowing for precise, directional airflow control in any room. The brushed nickel finish and chrome-caged fan heads provide a contemporary aesthetic that complements both residential and commercial interiors. Integrated with a frosted glass light fixture, this unit serves as a dual-purpose solution for efficient air circulation and ambient illumination.
