

Dual Head Garden Hoe Cultivator

This combination hoe is a versatile gardening tool featuring a hoe blade on one side for weeding and cultivating, and a pronged cultivator on the other for breaking up soil and aerating. It has a comfortable ergonomic handle for ease of use.

Product Overview

Dual-Head Garden Cultivator

This professional-grade garden hand tool features a versatile dual-head design, combining a hoe blade on one side for efficient weeding and a pronged cultivator on the other for soil aeration. Constructed from heat-treated carbon steel with a durable black powder coating, it is built to withstand rigorous gardening tasks. The ergonomic TPR handle ensures user comfort during extended periods of use, making it an essential tool for professional landscaping and gardening maintenance.
