

# Dual-Lamp Bathroom Heater

This bathroom heater features two radiant lamps for efficient and localized heating. It is designed for wall or ceiling installation to provide targeted warmth.

## Overview

### Efficient Bathroom Climate Control

This versatile bathroom heater provides a comprehensive solution for comfort, combining heating, lighting, and ventilation in a single ceiling-mounted unit. Designed for spaces between 10 and 20 square meters, it ensures rapid warmth through four powerful heating lamps. Its integrated ventilation system maintains air quality, making it an essential addition for modern bathroom environments.
