

Dual Port QC3.0 USB Car Charger Socket

This is a dual QC3.0 USB charger socket designed for fast charging in cars and buses. It features two QC3.0 USB ports, enabling simultaneous charging of two devices.

Overview

High-Efficiency Dual Port Charging

This dual QC3.0 USB charger socket is engineered for rapid charging in automotive environments, including cars and buses. Featuring two high-speed QC3.0 ports, it enables the simultaneous charging of multiple devices with reliable and efficient performance. Built with durable materials, it serves as a versatile and robust power solution for modern vehicle interiors.

Technical Specifications

Performance Metrics

2 ports

QC 3.0 Ports

Charging Technology	Quick Charge 3.0 (QC 3.0)
Number of Ports	2
Compatible Vehicles	Cars, Buses
