

Dual Press Handheld Garment Steamer and Iron

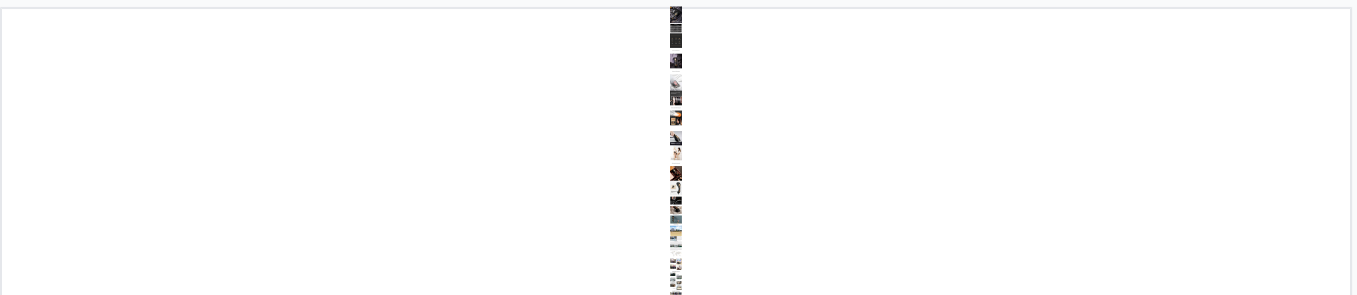

This appliance combines steaming and ironing into one unit. It features a dual heating system and ceramic coated panel.

ADDITIONAL IMAGES

Product Overview

All-in-one steamer and iron design featuring ceramic coated panels and honeycomb passageway technology.

Dual-Function Garment Care

This versatile handheld appliance combines the functionality of a powerful garment steamer and a high-temperature iron into one compact device. Featuring an innovative dual-heating system with a ceramic-coated panel, it offers both steam and dry ironing modes to effectively remove wrinkles from various fabric types. Designed for both home and travel convenience, it provides quick results with a rapid 50-second heat-up time and an 8-minute continuous steam duration.

Technical Specifications

Power Consumption	1300 W
Water Tank Capacity	180 ml
Steam Duration	8 min
Heat-up Time	50 s
Cable Length	1.8 m

Certifications
