

# Dual Surface Electric Grill and Griddle

This electric grill features a dual-surface design with both a ribbed grilling area and a flat griddle section. The grilling surface appears to be made of cast iron or a similar durable material, providing even heat distribution.

## Product Overview

### Versatile Dual Surface Cooking

This professional-grade electric grill and griddle features a dual-surface design, combining a ribbed grilling area for authentic sear marks with a flat griddle section for versatile cooking options. Engineered for efficiency and durability, it offers adjustable temperature control to ensure even heat distribution across the cooking surface. Its compact, sturdy design makes it an ideal solution for indoor commercial or high-volume residential kitchen environments.
