

Dual-Surface Raclette Grill with Stone and Ribbed Top

This electric raclette grill features a dual-surface design with both a natural stone and a ribbed grill top. It includes individual raclette pans with heat-resistant handles and adjustable temperature control.

Product Overview

Interactive Dining Experience

This electric raclette grill features a versatile dual-surface design, combining a natural stone grilling surface with a ribbed grill top for varied cooking styles. Designed for social gatherings, it includes individual raclette pans with heat-resistant handles, allowing for personalized cheese melting and grilling. The compact, tabletop-friendly unit is equipped with adjustable temperature controls and non-stick surfaces, ensuring both ease of use and convenient cleaning.
