Overview

Professional Nitro Cold Brew Solution

This dual-tap nitro cold brew coffee dispenser is engineered for cafes, restaurants, and office pantries seeking to serve premium nitro-infused beverages. It efficiently draws liquid from pressurized or non-pressurized containers, such as Bag-in-Box systems, and infuses it with atmospheric nitrogen. The integrated refrigeration system ensures a consistent serving temperature of 2°C, delivering a smooth, creamy cascading effect with every pour.

Performance Metrics

Dispense Flowrate

36 L/hr
Flowrate

Coffee Temperature

2 °C
Target Temp

Technical Specifications

Power Supply	115 V / 60 Hz, 230 V / 50 Hz
Dimensions (W/H/L)	210 / 510 / 469 mm
Weight	24 kg
