

# Dual Tub Top-Loading Washing Machine

This top-loading washing machine features a dual-tub design for washing and spin-drying. It includes timer controls for both washing and spinning cycles, allowing for customized operation.

## Overview

### High-Capacity Dual-Tub Performance

This semi-automatic top-loading washing machine offers a robust 13KG capacity, ideal for efficient laundry processing in various environments. The dual-tub design allows users to simultaneously wash and spin-dry clothes, providing significant time-saving benefits. Featuring intuitive timer controls, this model ensures customized operation for different garment types, making it a reliable solution for high-volume laundry needs.
