Product Overview

Ergonomic Cooling Solution

This dual USB laptop cooling pad is engineered to maintain optimal thermal performance for laptops of various sizes. Featuring an adjustable height design, it promotes better posture and reduces strain during extended work sessions. The integrated dual USB charging ports provide added convenience, allowing users to power peripheral devices directly through the cooler.

Technical Specifications

Connectivity

- Dual USB charging ports
- Pass-through charging capability

Cooling System

Multiple fan array

Ergonomic Features

Adjustable Height, Posture Support, Strain Reduction

Compatibility

Ideal Environments

Home Office • Corporate Workspace • Remote Work

Device Compatibility

Universal support for various laptop sizes
