

Dual USB QC 3.0 Fast Charging Socket with Voltmeter

This DC 12V-24V socket provides dual USB ports for charging devices in vehicles. It supports QC 3.0 fast charging and includes a voltmeter to monitor the vehicle's electrical system.

Product Overview

High-Performance Dual USB Charging Solution

This advanced aluminum alloy charging socket features dual Quick Charge 3.0 ports, delivering charging speeds up to four times faster than standard sockets. The integrated LED voltmeter provides real-time monitoring of your vehicle's electrical system, ensuring safety and reliability across various applications. Designed for durability with scratch-resistance technology, this waterproof socket is an ideal power solution for cars, boats, motorcycles, and RVs.

Performance Metrics

Dual Quick Charge 3.0 USB Ports for Efficiency
Simultaneous high speed charging for two compatible devices.

Charging Performance

21 W

Maximum Output

4 x

Charging Speed vs Standard

Technical Specifications

Output Voltage/Current Profiles

- DC 5V / 3.1A
- DC 9V / 2.1A
- DC 12V / 1A
- DC 5V / 1.5A

Input Voltage

DC 12V-24V

Warranty

1 Year / 12 Months

Design & Build

Key Features

Waterproof • Scratch Resistant • LED Voltmeter • Dual QC 3.0

Material

Aluminum Alloy, PVC

Physical Dimensions

4.2cm x 3.7cm x 2.8cm

Safety & Compatibility

Safety Features

- Integrated 10A Fuse
- High-Temperature Resistance
- Overheat Protection (Metal Body)

Compatible Vehicles

Car, Boat, Marine, Motorcycle, ATV, RV, Truck

Package Contents

Included in Package

- 1 x Dual USB Car Charger Adapter
- 1 x Red/Black Wire with 3.3ft Fuse
