Product Overview

High-Performance Dual USB Car Charger

This dual USB vehicle charger is engineered for efficient and rapid charging of mobile devices while on the go. Featuring a sleek, compact design with a blue illuminated power indicator, it integrates seamlessly into any vehicle interior. Equipped with advanced smart IC technology, it intelligently recognizes connected devices to optimize charging current, ensuring both speed and safety for your electronics.

Technical Specifications

Output Current Options

- 2.4A
- 3.1A
- 4.8A

Input Voltage	12-24V
Output Voltage	5 V
USB Ports	2

Features & Safety

Design Highlights

Compact Design • Blue LED Indicator • Simultaneous Charging

Safety Protections

Overcurrent Protection, Overvoltage Protection, Smart IC Recognition

Performance Metrics

Charging Performance

4.8 A

Max Output Current

2 Ports

Simultaneous Devices
