

Dual-Zone Freestanding Wine Refrigerator

This wine cabinet offers precise temperature control for optimal storage. It features wooden shelves, a sleek black exterior, and a stainless steel framed glass door.

Overview

Professional Dual-Zone Wine Preservation

This freestanding wine refrigerator provides professional-grade storage with dual-temperature zones, ensuring optimal conditions for both white and red wine varieties. Designed with a sleek stainless steel aesthetic and adjustable wooden shelving, it combines durability with elegant display capabilities. Equipped with electronic controls and efficient R600a cooling technology, this unit is an ideal solution for specialized wine storage environments.
