

# Dual Zone Induction and Infrared Cooker

This cooker combines induction and infrared cooking technologies, offering versatility for various cooking needs. It features two distinct cooking zones, digital controls, and safety features like a child lock and overheat protection.

## Product Overview

### Dual-Zone Versatility

This dual-zone cooker combines the efficiency of induction technology with the flexibility of infrared heating in a single, integrated unit. Designed with a sleek crystallite surface, it supports both standing and built-in installation, making it a versatile choice for professional kitchen environments. High-quality internal components ensure reliable performance and precise temperature control for diverse culinary applications.

## Technical Specifications

### Total Power Output

**2000 W**  
Induction Zone

**2000 W**  
Infrared Zone

### Electrical Input

88-275V, 50-60Hz

### Key Internal Components

Siemens IGBT, Samsung CMOS

## Design & Installation

### Installation Compatibility

Standing • Built-in

### Surface Material

Crystallite

## Dimensions

### Dimensions

Item	Size (mm)
Product	670 x 400 x 71
Carton	720 x 500 x 180

## Logistics

### Container Loading Capacity

- 20' Container: 429 pcs
- 40' Container: 936 pcs
- 40' HQ Container: 1008 pcs

### Minimum Order Quantity

1 x 20' container
