

Ductile Iron Pipes with SIA Wb Anchored Joint

These ductile iron pipes feature a SIA Wb anchored joint system. They are designed for high-pressure municipal water supply engineering.

Product Overview

High-Performance Anchored Ductile Iron Pipes

These high-pressure ductile iron pipes feature an advanced anchored joint system specifically engineered for municipal water supply engineering. Designed for robust performance and long-term reliability, they provide a secure, leak-free transmission solution for demanding water processing environments. Their durable construction ensures consistent operation across a wide range of infrastructure projects.

Technical Specifications

Available Lengths

- 6 meters
- 8.15 meters

Diameter Range	DN80 - DN2600mm
Joint System	SIA Wb Anchored Joint

Certifications & Standards

Quality Certifications	ISO 9001, ISO 14001, GB/T 28001, BV Certified, KS Certified
------------------------	---

Performance Metrics

Annual Production Capacity

38000 km

Annual Pipeline Capacity
