Product Overview

Ductile Iron Tapping Saddle

This ductile iron tapping saddle is engineered for reliable and secure connections on various pipeline materials, including PVC, HDPE, ductile iron, and mild steel pipes. Designed to facilitate efficient service connections or pipeline repairs, it ensures a robust, leak-proof seal in demanding water and sewage applications. Its durable construction offers excellent resistance to corrosion and mechanical stress, making it an ideal choice for long-term infrastructure projects.

Compatibility

Compliance Standards

EN545 • EN598 • ISO2531

Compatible Pipe Materials

PVC, HDPE, Ductile Iron, Mild Steel

Technical Specifications

High-quality ductile iron tapping saddle featuring a robust design with multiple bolt connections for a secure, leak-proof seal.

Customization Options

Yes

Special Size Availability

Yes, special sizes are available upon request
