

Dumbwaiter Elevator for Vertical Transport

This dumbwaiter elevator facilitates the vertical transportation of goods in various settings. Its robust construction and compact design make it suitable for restaurants, libraries, and other commercial environments.

Product Overview

Industrial Vertical Transport Solution

The 3000 Series Dumbwaiter Elevator is engineered for the efficient vertical movement of goods in commercial environments. Utilizing synchronous permanent-magnetic gearless traction and advanced microcomputer serial communication, the system offers high stability and interference-free operation. Its compact design is specifically optimized for installations where space is at a premium.

Technical Specifications

Safety Systems

- Emergency stop buttons
- Overload protection
- Interference-free control system

Control Technology

SPM Gearless Traction, Microcomputer Serial Communication, CAN BUS Control, VVVF

Application

Typical Applications

Restaurants • Libraries • Commercial Buildings

Construction

Construction Materials

Robust stainless steel construction designed for high-frequency use
