

Durable Bicycle Tire

This bicycle tire is designed for various terrains. It features a robust tread pattern for enhanced grip and control.

Product Overview

High-Performance Bicycle Tire

This durable bicycle tire is engineered for versatility across various cycling terrains. Its robust tread pattern ensures superior grip and control, making it an excellent choice for both on-road and off-road environments. Constructed from a high-quality rubber compound, it is designed for long-lasting performance and exceptional resistance to wear and tear.

Technical Specifications

Key Performance Features

- Robust tread pattern
- Enhanced grip and control
- High wear and tear resistance
- Stable riding experience

Material	High-quality rubber compound
Terrain Compatibility	On-road, Off-road
Model Identifier	614
