Product Overview

High-Performance Ductile Iron Manhole Covers

These heavy-duty manhole covers are engineered from premium GJS500/7 ductile iron, ensuring exceptional durability and load-bearing capacity for urban infrastructure. Designed to meet international safety standards, they offer reliable performance across a wide range of traffic conditions from pedestrian areas to heavy-load zones. With a versatile size range and multiple certification approvals, these covers provide a secure and long-lasting solution for municipal and industrial drainage systems.

Technical Specifications

Material Grade	Ductile Iron GJS500/7
Available Sizes	200mm - 1200mm
Load Classes	A14, B125, C250, D400, E600

Compliance & Quality

Certifications

ISO 9000 • BSI Kite Mark • SGS • ICIMQ

Standards	EN124-2
