

Durable Metal Equipment Enclosure with Keyed Lock

This robust metal enclosure is designed for housing sensitive equipment or materials. It features a keyed locking mechanism for enhanced security and includes circular indicators for potential control or monitoring functions.

Product Overview

Robust Equipment Protection

This durable metal equipment enclosure is engineered to provide secure housing for sensitive electronic components or industrial materials. Designed with a focus on security and environmental resilience, it features a reliable keyed locking mechanism to prevent unauthorized access. The unit's light-colored finish offers enhanced visibility and resistance to wear, making it an ideal choice for demanding operational environments.

Technical Specifications

Primary Use

- Equipment Housing
- Control Systems
- Monitoring Stations

Material	Durable Metal
Security Features	Keyed Lock, Tamper-Resistant
Interface Indicators	Yes
