

# Dustbin Injection Mold

This injection mold is engineered for manufacturing plastic dustbins. It features robust construction and advanced cooling systems for efficient and consistent production.

## ADDITIONAL IMAGES

## Overview

### Precision Dustbin Injection Mold

This high-precision injection mold is engineered for the manufacturing of durable plastic dustbins, suitable for high-volume production environments. Constructed with robust, high-quality steel and featuring advanced cooling systems, it ensures consistent part quality, reduced cycle times, and long-term durability. Designed to accommodate various dustbin shapes and sizes, this mold offers reliable performance for manufacturers seeking efficiency and precision.

## Technical Specifications

### Mould Life

**300000 shots**  
Minimum Shots

**500000 shots**  
Maximum Shots

Mould Steel Options	718, P20, 2738, NAK80, S136
Mould Base Material	S50C
Cavity Configuration	Single
Runner System	Yudo Hot Runner (2 points valve gate)

## Production Capabilities

### Compatible Plastic Materials

PVC • PC • PP • PE • ABS

### Supported Design Software

- UG
- PROE
- CAD
- CAXA

## Logistics & Compliance

### Certifications

ISO9001:2008

### Delivery Time

30-70 days

### Payment Terms

T/T, L/C
