

DVB-C Cardless Receiver

This DVB-C receiver is designed for cardless operation. It features advanced demodulation and decoding capabilities and supports various cable TV standards.

Product Overview

High-Performance Cardless DVB-C Receiver

This DVB-C receiver offers a streamlined, cardless viewing experience with advanced H.265 and H.264 decoding capabilities. Designed for reliability and ease of use, it features a powerful Montage CPU and supports comprehensive channel scanning options, including blind and manual modes. With versatile connectivity through USB 2.0 and RS232, this unit is built to integrate seamlessly into modern cable TV setups while providing professional-grade features like a 7-day EPG.
