

DVD-R 4.7GB 8X

This is a single-layer DVD-R disc for one-time recording. It has a 4.7GB storage capacity, a recording time of 120 minutes, and a write speed of 8X.

Product Overview

Professional Grade DVD-R Media

This single-layer DVD-R disc is engineered for reliable, one-time recording of digital data, video, and audio files. With a standard 4.7GB storage capacity, it provides ample space for archiving important data, backups, or creating custom DVD video content. Designed for broad compatibility, this media works seamlessly with most standard DVD-R writers and playback devices.
