

DVI to DVI Monitor Cable

This DVI monitor cable features DVI male connectors on both ends. It is constructed with high-quality materials to minimize signal loss and interference.

Overview

High-Performance DVI Connectivity

This DVI to DVI monitor cable is engineered for reliable, high-resolution video transmission between computers and display devices. Designed with stranded copper cores and robust shielding, it ensures minimal signal interference and optimal clarity for professional workstations and multimedia setups. Its durable construction and flexible jacket options make it a versatile choice for both office and home theater environments.

Physical Specifications

Cable Diameter	7.6 mm
Jacket Material	PVC, LSZH
Jacket Color	Black (customizable via Pantone)
Connector Type	DVI Male to DVI Male

Electrical Specifications

Key Electrical Metrics

75 ohms

Impedance

2.5 dB/100ft

Attenuation

18.5 pF/ft

Mutual Capacitance

Shielding	85% braid
Wire Gauge	28AWG

Compatibility

Supported Applications

- Switcher
- Monitor
- Projector
- Graphics Cards
