

Dynamic Cardioid Microphone for Vocals and Speech

This dynamic microphone is designed for vocal and speech applications. It features tailored frequency response and a cardioid polar pattern to minimize background noise.

Product Overview

Professional Vocal Performance

This dynamic microphone is engineered for precision in vocal and speech applications. Featuring a durable metal construction and a specialized cardioid polar pattern, it effectively minimizes background noise and feedback during use. It is a reliable solution for stage performances, professional presentations, and clear recording tasks.

Technical Specifications

Sensitivity

-74 dB
Sensitivity

Microphone Type	Dynamic
Directivity	Uni-directivity (Cardioid)
Frequency Response	50-14000Hz
Impedance	600 Ω

Construction

Material Composition	Metal, Plated Finish
