

Dynamo Multifunction Flashlight with FM Radio and Alarm

This dynamo flashlight features 5 LEDs, including a red warning light, integrated FM radio, and alarm function. It is designed for emergency use and various outdoor activities.

Product Overview

Versatile Emergency Lighting & Radio

The LY-L36 series is a multi-functional dynamo-powered tool designed for emergency preparedness and outdoor reliability. It combines high-visibility LED illumination with essential utility features, including an FM radio and an integrated alarm system. With manual winding capabilities, this device ensures you have light and communication access even when off the grid.
