

E-Cigarette Battery with Variable Voltage

This e-cigarette battery is compatible with eGo Series atomizers and clearomizers, using 510 threading. Voltage can be adjusted from 3.2V to 4.8V.

Product Overview

Versatile E-Cigarette Power Solution

This E-Cigarette battery is designed for reliability and compatibility, featuring a standard eGo screw thread that fits a wide range of clearomizers including CE4, CE5, T2, T3, and MT3 models. Available in three distinct capacity options, it offers flexibility for different usage needs, delivering consistent vapor production. With a durable design supporting up to 300 charge cycles, it is an ideal power source for both new and experienced users.

Technical Specifications

Available Capacities

- 650mAh
- 900mAh
- 1100mAh

Charging Time	2 hours
