

E-Cigarette Battery with Variable Voltage

This e-cigarette battery has a variable voltage output that can be adjusted from 3.2V to 4.8V. It is equipped with a 510 threading, ensuring compatibility with eGo Series atomizers and clearomizers.

Product Overview

Versatile E-Cigarette Power Solution

This variable voltage battery is designed for electronic cigarette applications, offering reliable power delivery for consistent performance. Available in three distinct capacity options, it caters to various usage needs while maintaining a compact form factor. The design supports fast USB charging, ensuring minimal downtime for professional users.
