

E14 Lamp Gauge Hardness Steel

This E14 lamp gauge is made from hardness steel. It complies with IEC60061 and IEC60968 standards.

Product Overview

Precision E14 Lamp Testing Gauges

These E14 lamp gauges are precision-engineered tools crafted from hardened steel to ensure strict adherence to international quality standards. Designed for both lamp manufacturing and quality control environments, they facilitate accurate dimensional verification and testing of E14 caps and lampholders. Their robust construction provides the durability required for rigorous, long-term industrial use.

Material	Hardened Steel
----------	----------------

Compliance & Standards

Applicable Standards	IEC60061, IEC60968
----------------------	--------------------

Gauge Specifications

Available Gauge Types

Standard Reference	Description
7006-27F-1	Go gauge for E14 caps on finished lamps
7006-28B-1	Not go gauge for E14 caps on finished lamps
7006-54-1	Gauge for finished lamps (contact making)
7006-55-2	Gauge for finished lamps (port testing)
7006-27G-1	Go gauge for dimension S1
7006-25-7	Go plug gauge for screw threads
7006-26-4	Not go plug gauge for screw threads
7006-30-2	Plug gauge for lampholders (contact making)
7006-31-4	Gauge for contact making and port testing
7006-30A-1	Plug gauge for candle shaped shaft
