

E26 Lamp Cap Gauge - Hardened Steel, IEC Compliant

This E26 lamp cap gauge is made from hardened steel. It is compliant with IEC60061 and IEC60968 standards.

Product Overview

Precision E26 Lamp Cap Gauges

These hardened steel E26 lamp cap gauges are precision-engineered to meet stringent IEC60061 and IEC60968 standards. Designed for rigorous quality control and dimensional verification, these tools ensure that lamp caps maintain proper fit and functionality in demanding industrial environments. They are essential instruments for manufacturers and testing facilities requiring consistent compliance and product integrity.
