

E26 Outdoor String Lights

Commercial-grade string lights designed for outdoor use. Features E26 sockets and weather-resistant construction.

Product Overview

Professional Grade Outdoor Lighting

These heavy-duty string lights are engineered for both commercial and residential applications, providing a reliable solution for patios, gardens, events, and architectural lighting. Featuring a robust, weather-resistant construction, the durable black plastic sockets ensure long-lasting insulation and protection for your bulbs. With integrated hanging loops, installation is secure and straightforward, making them an ideal choice for professional-grade outdoor lighting setups.
