## Product Overview

### Smart Filament Lighting

This E27 8W LED filament bulb seamlessly blends the timeless aesthetic of traditional incandescent lighting with modern smart functionality. Featuring instant-on performance and compatibility with voice control and mobile apps, it allows users to easily adjust brightness and color temperature for any scene. Designed for efficiency, this bulb offers a long 15,000-hour lifespan and significant energy savings as an alternative to conventional lighting.

## Technical Specifications

### Performance Metrics

**8 W**

Wattage

**806 lm**

Luminous Flux

**15000 hrs**

Lifespan

### Electrical Ratings

Parameter	Value
Voltage	220-240V
Power Factor	0.5
Starting Time	<0.5s

Base Type

E27

## Features

### Smart Capabilities

- Dimmable
- App control from anywhere
- Adjustable color temperature (CCT)
- Voice control support

### Light Quality

Flicker-free, No UV/IR, 320° Beam Angle, Ra 80
