

E40 Ceramic Lamp Holder Socket

This robust lamp holder socket is designed for high-wattage applications. Its durable ceramic construction ensures excellent heat resistance and electrical insulation.

Product Overview

Professional Grade E40 Socket

The E40 FL539N is a robust and reliable lamp holder socket engineered for high-wattage applications. Featuring durable ceramic construction, it ensures excellent heat resistance and superior electrical insulation. Designed for industrial and stage lighting, this socket provides a secure, standardized connection and long-lasting performance in demanding environments.

Technical Specifications

Base Type	E40 Edison Screw
Material	Ceramic
Key Features	Heat Resistant, Corrosion-Resistant Components, Ribbed Exterior

Applications

Suitable Environments

- Industrial Lighting
- Stage Lighting
- High-Temperature Environments
- High-Voltage Installations

Performance

Performance Highlights

1 Easy/Ribbed Grip
Installation

1 Consistent
Electrical Contact
