

Earth Auger Power Drill

This earth auger power drill is a powerful and efficient tool for digging holes in the ground. It is ideal for planting trees, installing fences, and soil sampling.

Overview

High-Performance Earth Auger

This earth auger power drill is engineered for efficient and reliable hole digging in various soil conditions. Powered by a robust 49CC two-stroke gasoline engine, it delivers consistent power for tasks such as fence installation, tree planting, and soil sampling. Designed for professional usability, the unit features ergonomic controls and a durable construction to ensure long-lasting performance on the job site.

Engine Specifications

Engine Power

1.46 kW
Power Output

7000 r/min
Max RPM

Engine Model	1E44-5
Engine Configuration	Air-cooled, Two-stroke, Single cylinder
Displacement	49 CC

Performance & Operation

Fuel/Oil Mixing Ratio	25:1
Fuel Tank Capacity	1200 ml
Idling Speed	2800 r/min
Carburetor Type	Pump-film

Drill Capabilities

Compatible Drill Diameters

- 100
- 150
- 200

Logistics

Engine Packaging Dimensions	62 x 40 x 30 cm
