Product Overview

Professional Earth Auger Power Tool

This versatile earth auger is designed for high-performance drilling across various landscaping and construction applications, including fence post installation and tree planting. Featuring a robust, interchangeable engine system compatible with brush cutters, it offers both power and flexibility for professional users. Built for durability and reliability, the tool includes safety features like short-circuit protection and is engineered to maintain stable operation even in high-temperature environments.

Technical Specifications

Safety Features

Short circuit protection • Flameout wire

Engine Displacement	52cc, 62cc
Fuel/Oil Mixing Ratio	1:25

Drilling Capabilities

Available Bit Diameters

- 8
- 10
- 15
- 20
- 25
- 30

Available Bit Lengths

- 80
- 100
- 120

Bit Construction

One-piece durable design
