

Earth Leakage Circuit Breaker

This earth leakage circuit breaker is designed for electrical safety. It is available in models with AC 240V or AC 415V rated voltage, both with a 40A rated current and a 30mA tripping current.

Product Overview

Professional Earth Leakage Protection

This current-operated earth leakage circuit breaker is engineered to provide reliable electrical safety in industrial and commercial environments. It is designed to detect leakage currents and interrupt circuits effectively, ensuring protection against faults. The unit is compliant with IEC 1008 standards and features a robust construction suitable for demanding electrical installations.

Technical Specifications

Rated Voltage (Ue)

- AC 240V
- AC 415V

Rated Current

40 A

Tripping Current (I_{Δn})

0.03 A

Pole Configuration

4 Pole

IP Rating

IP30

Compliance & Certification

Standards Compliance

IEC 1008, CE

Product Identification

Model Number

FWP-7030/40LP-1
