

Earth Leakage Circuit Breaker

This circuit breaker is designed to protect against electrical shock. It features a test button to verify functionality and ensure reliable performance in various electrical environments.

Product Overview

Safety and Reliability

This Earth Leakage Circuit Breaker is engineered to provide critical protection against electrical shocks and earth faults. Designed for robust performance, it features a built-in test button for routine functionality verification. It ensures electrical safety in diverse environments by detecting leakage currents and interrupting the circuit to prevent hazards.

Technical Specifications

Rated Voltage	240 V
Rated Leakage Current	30 mA
Poles	2P
Standards Compliance	IEC61009-1, CE

Features

Safety Features

- Earth leakage protection
- Integrated test button
- Robust construction
