Product Overview

High-Performance Engine Piston

This high-performance piston is specifically engineered for EC5 1.6L 16V passenger car engines, focusing on optimal combustion efficiency and long-term durability. It features a lightweight construction with precision-machined ring grooves and a robust skirt design to minimize friction and enhance engine longevity. Manufactured to meet or exceed OEM specifications, this component is an ideal solution for engine rebuilds, performance upgrades, and reliable maintenance.

Technical Details

Compatible Engine	EC5 1.6L 16V
Key Features	Precision-machined ring grooves, Lightweight construction, Robust piston skirt, Advanced surface treatments

Quality & Standards

Manufacturing Standards
OEM Specification Compliant • High Durability

Application

Primary Applications

- Engine rebuilds
- Performance upgrades
- Maintenance services
- Replacement of worn or damaged pistons
