Product Overview

Reliable Medical Power Solution

This high-performance Nickel-Metal Hydride (Ni-MH) battery pack is engineered to provide consistent and long-lasting power for critical medical monitoring equipment. Designed for durability and safety, it ensures reliable operation for ECG machines during diagnostic procedures. This unit serves as a dependable replacement or backup power source, maintaining the operational integrity of your medical devices.

Technical Specifications

Rated Voltage

7.2 V
Voltage

Capacity

2050 mAh
Capacity

Battery Chemistry	Nickel-Metal Hydride (Ni-MH)
Weight	167 g
Dimensions	86 x 53 x 15 mm
Color	Blue/Black

Compatibility

Compatible ECG Models

- YS-085P6
- PLV-2700
- OLG-2800

Compliance & Standards

Certifications

CE • EU Compliant
