## Product Overview

### High-Performance Replacement Battery

This replacement battery pack is specifically engineered for GE Pro series patient monitors, including models 1000, 1006, 1008, and 1009. Designed for critical care environments, it provides reliable power output with a high-capacity Ni-MH construction. The unit features robust assembly, including secure connectors and treated fixing screws, ensuring seamless integration and long-term operational stability.

## Technical Specifications

Battery Chemistry	Ni-MH (Nickel-Metal Hydride)
Voltage	12 V
Capacity	8000 mAh
Model Number	10N-2P17650

## Physical Attributes

Dimensions	100 x 88 x 69 mm
Weight	1200 g
Color	Black, White

## Compatibility

### Compatible Monitor Models

- Pro 1000
- Pro 1006
- Pro 1008
- Pro 1009
