

Edison Style LED Filament String Light

This LED filament string light features evenly spaced LED bulbs with a classic Edison-style filament design. These energy-efficient and long-lasting lights are suitable for indoor and outdoor use, providing a warm and inviting light.

Product Overview

Vintage Aesthetic with Modern Efficiency

This LED filament string light combines the classic, cozy look of Edison-style bulbs with modern energy-efficient technology. Designed with a solid, shatter-resistant acrylic shell, these lights are built for durability and are suitable for both indoor and outdoor environments. Featuring 24 bulbs per string and a convenient control box, they offer a reliable and versatile lighting solution for patios, gardens, and special events.
