

EFI Petrol Engine LJ462QE

The LJ462QE EFI Petrol Engine is engineered for high performance and optimal fuel efficiency. It features advanced electronic fuel injection (EFI) technology for precise fuel delivery, improving combustion and reducing emissions.

Overview

High-Performance EFI Petrol Engine

The LJ462QE EFI Petrol Engine is a high-performance automotive engine engineered for optimal fuel efficiency and consistent power delivery. Utilizing advanced electronic fuel injection (EFI) technology, it ensures precise fuel metering for improved combustion cycles and reduced emissions. Its robust construction is designed for durability and reliability, making it an ideal solution for a variety of automotive applications requiring exceptional performance.

Technical Specifications

Model Number	LJ462QE
Fuel System	EFI (Electronic Fuel Injection)
Engine Type	Petrol

Key Features

Performance Highlights

- Advanced electronic fuel injection for precision
- Optimized fuel efficiency
- Reduced emission output
- Robust construction for enhanced durability
