

Ego A E-Cigarette Battery with Variable Voltage

This e-cigarette battery is compatible with eGo Series atomizers and clearomizers due to its 510 threading. The voltage can be adjusted from 3.2V to 4.8V and it has a 5-click on/off function.

Product Overview

Versatile Ego Series Battery

This rechargeable Ego-series battery is designed to provide reliable power for various vaping devices. Available in three capacity options, it offers flexibility to match your usage needs. With its standard Ego screw thread, it ensures broad compatibility with a wide range of clearomizers and cartridges, making it a versatile choice for professional sourcing.
