

# EGO-T Variable Voltage E-Cigarette Battery

This e-cigarette battery features variable voltage output adjustable from 3.2V to 4.8V. It is compatible with eGo series atomizers and clearomizers due to its 510 threading.

## Product Overview

### Versatile Power for EGO-Style Systems

The EGO-T variable voltage battery is designed to provide reliable power for EGO-style electronic cigarettes. Available in three distinct capacities, these batteries cater to different usage needs, ensuring compatibility with standard atomizers and clearomizers. With a variety of color options and a compact form factor, this battery is an essential component for customizable vaping setups.

## Technical Specifications

### Available Capacities

- 650mAh
- 900mAh
- 1100mAh

### Estimated Puff Counts

**1100 puffs**  
650mAh Capacity

**1600 puffs**  
900mAh Capacity

**1900 puffs**  
1100mAh Capacity

### Charging Duration

2-3 hours (using fast USB charger)

## Design and Dimensions

### Size Guide

Capacity	Dimensions (mm)
650mAh	14 * 71
900mAh	14 * 86
1100mAh	14 * 96

### Available Colors

Green • Red • Purple • Black • Yellow • Blue • Pink • Steel • Gray • White
