

# Elastic Bandages for Medical Use

Elastic bandages provide support and compression for injuries. They are available in various sizes and are ideal for medical and home use.

## Product Overview

### Professional Medical Elastic Bandages

These elastic bandages are designed for high-performance support and compression in medical and first aid environments. Crafted from durable woven fabric with consistent elastic properties, they provide secure wrapping for injuries, sprains, and wound care. Their versatile design makes them an essential supply for hospitals, clinics, and sports medicine facilities.
